

# Cutting Countertops a Problem?

## HAS THE ANSWER

Looking for a blade that will guarantee you smooth cuts on your midwest automation and similar machines? A blade which has been field tested by one of the premier countertop

distributors "Coastal Countertops" of Statesboro, Georgia. Who stated: "Excellent blade, super Performance...Exceeds ALL previous blades we have used by some 400 cuts!"

### COUNTERTOP SAW

**TC45**

Saw No.	Diameter	Plate Thickness	Kerf	Bore	Hook	Teeth	Suggested List Price
CT1620	16"	.118	.150	1"	-2°	120	\$411.89

## Sawing Solid Surface? WANT A GLASS-LIKE FINISH?

Until now when it came to cutting solid surface, most fabricators cut it with conventional saw blades and lived with the fact that sanding and polishing were the next necessary steps after sawing.

That was true, but no longer. **EVERLAST** has a series of solid surface saw blades designed

specifically to give cuts that are chip free and a surface finish so smooth that sanding and polishing are virtually eliminated.

They are available from stock in 7-1/4", 8", 220mm, 10", 300mm and 12" diameter or can be supplied on special order in other sizes.

### SOLID SURFACE SAW

Saw No.	Diameter	Bore	Teeth	Suggested List Price
DFLC71440	7-1/4"	5/8"	40	\$150.18
DFLC860	8"	5/8"	60	\$171.77
DFLC22064	220mm	30mm	64	\$211.02
DFLC1060	10"	5/8"	60	\$190.69
DFLC1080	10"	5/8"	80	\$227.58
DFLC30010	300mm	30mm	100	\$296.75
DFLC1210	12"	1"	100	\$257.30
